ALPHABETICAL LIST OF SURNAMES
followed by names, date of death and location of gravestone

To appreciate what this list of names can, and cannot, tell us, two limitations must be kept in mind. One, this list records no death later than that of Mr Russel Scorer in November 1979. Subsequent burials with gravestones have not yet been added. Two, there are a great many today unmarked burials in Geldeston churchyard. Even in the 1911 extension there are one hundred more burials than gravestones. Before 1750 the gravestone or other such memorials were the exception: other parishioners were buried, at most, with a wooden cross bearing their name. To find out more about these many former inhabitants of Geldeston, we must turn to the parish registers.
